Hello everybody. It's action stations here.
Time to rescue Sicily and together regenerate Europe!

16 months to travel and research. Three years to write the book. One to publish and only 90 days to raise 50,000 pounds to fund a court action by Sicilian citizens against the state of Italy for breaching major articles of the European Human Rights Convention. Please have a look at <https://www.chuffed.org/project/secularising-sicily%20/>.
Please help post this on facebook and spread the campaign to save Sicily with your friends and families.
